Over 50 years...
Specializing in pillow
manufacture and development

100% Made in Japan

Moon Viella pillows are designed to be ergonomic to shape around the head and to minimize any unnecessary pressure against the neck and head. Made of polyester pipes and natural materials, the pillows can reduce asthma and allergens (i.e. dust mites). They have high permeability and absorption to give you a cool and refreshing sleep. The pipes also create a massage effect that help you fall asleep faster.

Donut Cushion/Pillow

The donut cushion/pillow is ideal for meditation and people who suffer from ear pain. Its design naturally stretches your back to prevent humpback, allowing you a healthy and beautiful posture during meditation. With a hole at the center, the donut cushion can be served as a pillow for those who need to avoid their ears pressed during sleeping on the side.

The height of the cushion/pillow is adjustable.

- Specification:**
- Size:** 10cm (H) x 24cm(W) x 36cm(L)
- Outer case:** 100% cotton printed fabric
- Filing material:** 100% polyester pipes
- Color:** Red and Blue

Raspberry Back Cushion

Raspberry back cushion is specially made to incorporate ergonomics in the design to support human back waist while sitting.

The unique cushion is 100% made of polystyrene beads to provide excellent back and waist support. The black color polyester fiber at the back side is slide-proof to constantly keep the cushion in position to give support to your back. The cushion has high permeability. It contains a delicate fragrance of raspberry to give you a sense of nature. The outer case can be taken away for washing.

- Specification:**
- Size:** 42.5cm (W) x 44cm (L)
- Outer case:** 100% cotton (contains raspberry fragrance)
- Outer case color:** Red and Black
- Inner bag:** 100% polyester white fabric
- Filing material:** 100% polystyrene beads

3D Bamboo Charcoal Seating/Sleeping mat

As the 3rd generation, the 3D bamboo charcoal seating mat is made to purify the air by absorbing hazardous substances and unpleasant smell.

The bamboo charcoal releases natural minerals found in bamboo to provide you with extra supplement and its micro holes automatically adjust the humidity. The mat emits far infrared rays and blocks electromagnetic waves, making it a healthy substance to be seating and sleeping on.

The mat is hand-woven to be durable and quality. Its patent slide-proof structure ensures the mat to hold its position. The mesh at the bottom of the mat is breathable and detachable so it can be washed without deformation. The mat can be used alone when the mesh detaches from the mat.

- Specification:**
- Size:** 43cm (W) x 43cm (L)
55cm (W) x 110cm (L)
100cm (W) x 186cm (L)
150cm (W) x 186cm (L)

* Bamboo charcoal mat also available in a variety of sizes for your selection.

Green Tea Pillow

Manufactured in Japan, the green tea pillow is specially made for neck support. The pillow is made of polyethylene pipes that are filled with processed green tea leaves. A refreshing fragrance emanates from the pipes to give you a scent of nature and tranquility. It also absorbs unpleasant smell and formaldehyde. In winter, you can sleep on the other side which is made of 100% cotton. The pipes can massage your head to enhance your sleep quality.

The height of the pillow is adjustable.

- Specification:**
- Size:** 10cm (H) x 43cm (W) x 63cm (L)
- Outer case:** One side is 100% polyester, one side is 100% cotton
- Filing material:** Polyethylene pipes contained green tea leaves

Curled Woodtips Pillow

Made of curled wood, the curled woodtips pillow gives you a sense of nature that helps you fall asleep by relaxing your nerve.

The pillow is filled with small volume of cypress curled wood that makes the pillow a natural insect repellent and bacteria-proof. Mixing the wood with polyethylene pipes, the pillow has a permeable and cool effect that can naturally absorb moisture. The pipes in the pillow adjust their positions based on your sleeping posture. It creates a massage effect that helps you fall asleep faster.

The height of the pillow is adjustable.

- Specification:**
- Size:** 10cm (H) x 43cm (W) x 63cm (L)
- Outer case:** 100% cotton
- Inner case:** 100% polyester
- Filing material:** Polyethylene pipes combined with cypress curled wood

Bamboo Charcoal Pillow

Bamboo charcoal pillow is specially made with a purpose to recover you from fatigue when you are asleep.

The pillow has a special function that brings out the negative ions and far infrared rays to facilitate your blood circulation and metabolism. The ions also keep the air fresh, ensuring you a fine sleep every night. The micro holes in the bamboo charcoal effectively keep moistness from the pillow and absorb unpleasant smell very well. Resting your head on the pillow, your head and neck will be relaxed, just like getting massage every night.

- Specification:**
- Size:** 8cm (H) x 35cm (W) x 56cm (L)
- Outer case:** 100% cotton
- Filing material:** 2 sheets of bamboo charcoal and siliconised polyester fibre

Washable Pillow

The washable pillow is made to be washed in a washing machine to save you time.

The Japanese pillow is made of polyester pipes at the front and 100% siliconized polyester fiber at the back. This would ensure excellent permeability and would provide a cooling effect while you sleep. The pillow also delivers outstanding neck support.

- Specification:**
- Size:** 10cm (H) x 36cm (W) x 56cm (L)
- Outer case:** 80% cotton, 20% polyester
- Inner case:** 100% polyester
- Filing material:** Polyester pipes on front side and 100% siliconised polyester fibre on back side

Raspberry Pillow

Made of 100% polyester pipes, the raspberry pillow relaxes your body perfectly with a fresh raspberry smell.

Particularly made to be smaller than normal pillows, the pillow fits ladies and teenagers well. The raspberry perfume the pillow carries gives an effect equivalent to aromatherapy that helps you keep the worry and nervousness away. The outer case can be washed and the height of the pillow is adjustable to fit your sleeping position.

- Specification:**
- Size:** 10cm (H) x 35cm (W) x 50cm (L)
- Outer case:** 100% polyester with raspberry smell
- Filing material:** 100% polyester pipes

Small Napping Pillow

Designed to be a multi-purpose pillow/cushion, the small napping pillow can be tightened or loosened up for sleeping or supporting your neck/back.

When the strings are tightened, the pillow is in cubic shape, perfect for laying it down on your desk for a power nap. When the strings are loosened, the pillow is in flat shape. It can be used as a sleeping pillow, a neck/back cushion as well as a small sleeping pillow for babies.

- Specification:**
- Size:** 10cm (H) x 26cm (W) x 32cm (L)
- Outer case:** 100% printed cotton
- Filing material:** 100% polyester pipes
- Color:** Red and Blue
